Multi-Digit Multiplication

Games

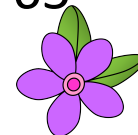

## Beehive Multiplication Game- Two Digit by Two Digit Multiplication

Each player will need a different color crayon or colored pencil. On your turn, choose 2 numbers (or the same number twice) from the Garden of Numbers. Take the two numbers and find the product. Your partner will check your work with a calculator. If the answer is correct, locate the answer in the beehive. When you are able to locate the answer, color the number with your color. The winner is the first player to connect 4 hexagons in a row. The player who can celebrate their birthday next goes first.

### Garden of Numbers

15 35 95 45 85  
25 75 55 65

## Beehive Multiplication Game- Three Digit by 2 Digit Multiplication

Each player will need a different color crayon or colored pencil. On your turn, choose 2 numbers from the Garden of Numbers. You must choose one 3 digit number and one 2 digit number. Take the two numbers and find the product. Your partner will check your work with a calculator. If the answer is correct, locate the answer in the beehive. When you are able to locate the answer, color in the hexagon with your color. The winner is the first player to connect 4 hexagons in a row. The player who can celebrate their birthday next goes first.

Garden of 3 Digit

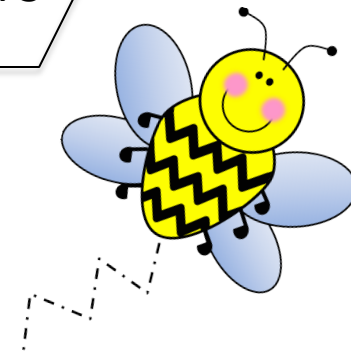

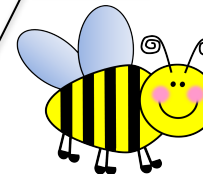

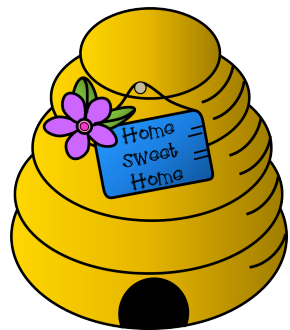

Numbers

225 375 455 565  
635 785

Garden of 2 Digit

Numbers

15 35 95 45 85 55

Special thanks to Busy Bee Clip Art by Sarah Warner for the awesome bee and flowers  
Clip art 😊
